

The Seafari® 20.

She has the highest resale value of any boat in her class in the world.

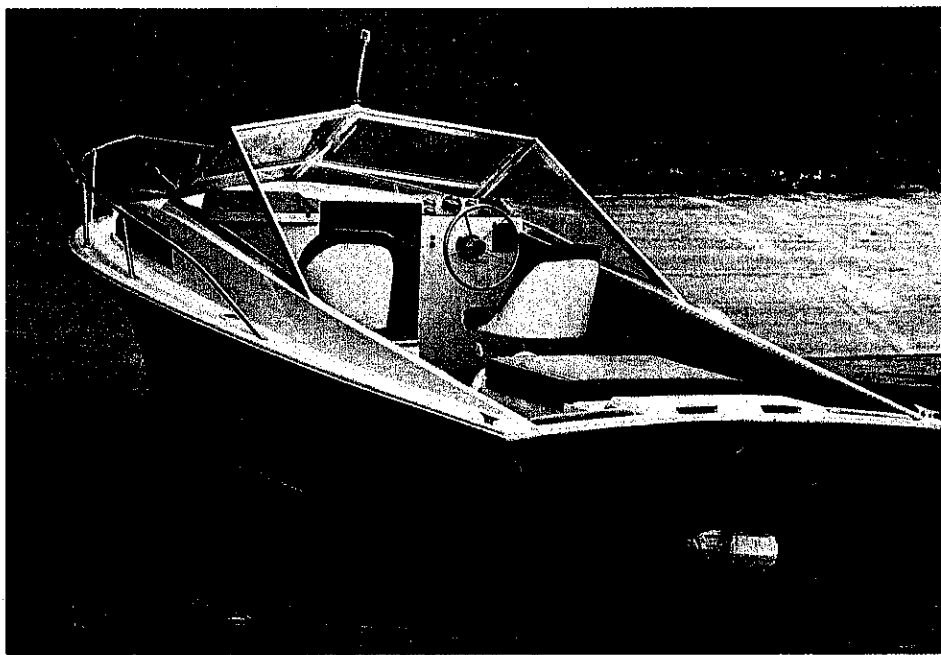

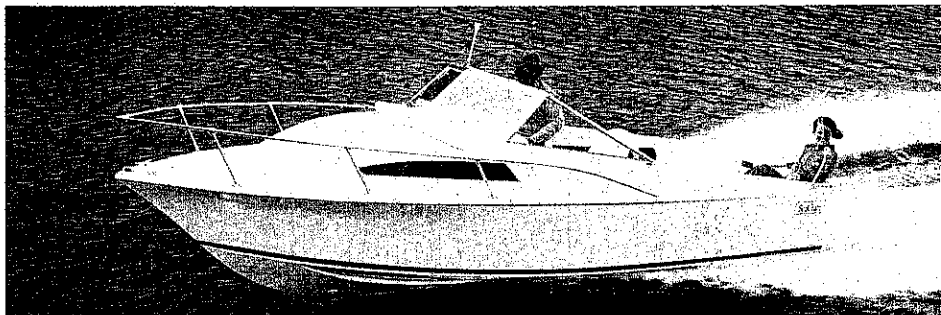

The reason is simple.

The Seafari® 20 delivers more luxury, more features, and more solid seaworthiness than anything else anywhere near her size.

Like all SeaCrafts, this boat begins with an incredible hull. But it's what's inside that counts. Things like teak rod holders. Carpeted glovebox. Cushions anywhere anyone might want to sit. A remarkably large cabin, with teak doors and shelves, plenty of storage, and two huge berths.

And options like the Galley Seat™ and camper canvas, to turn her into a super-seaworthy camper for zipping to The Bahamas or Catalina, cruising the Sea of Cortez, or even trailer-camping in the mountains.

The price of a new boat tells you what the builder thinks he can get

for it. But the price of a used boat tells you what other boatmen think it's worth.

And that's where the real value is.
